

## 2019-2020 Chinese Government Scholarship Program Harbin Institute of Technology

Founded in 1920, Harbin Institute of Technology has developed into an open, multidisciplinary, research-oriented, leading national university with science and engineering as its core, encompassing management, liberal arts, economy and law as a whole. In 2009, HIT became a member of Top 9 (C9) in China; in 2017, HIT was selected as one of the double first-class universities. HIT, as a leading engineering university ranks in the world's Top 6 in US News 2018. For international students out of China only who want to study master or PhD degree can apply for HIT Independent Recruitment Program with limited quota. HIT Independent Recruitment Program covers tuition fee, accommodation fee, stipend and insurance fee. It is one of the programs of Chinese Government Scholarship (hereinafter referred to as CSC scholarship) and assigned from Ministry of Education (hereinafter referred to as MOE) to the university to recruit outstanding international students. Applicants need to submit the application materials according to school requirements. HIT will admit the best applicants by selection and recommend to the China Scholarship Council. Applicants, who are recommended for the CSC scholarship, will receive a confirmation E-mail from HIT in April, and then complete the follow-up application according to the E-mail instructions.

### I . Application Duration

Applicants should post their application materials in time to the College of International Education (hereinafter referred to as CIE) of HIT **from September 20 to December 31, 2018.**

**Note:** The date of receiving paper materials will be regarded as the date of application.

### II . Eligibility

1. Applicants must be non-Chinese nationality in good health.
2. Educational background required and age limit:

Applicants for master's degree studies must have bachelor's degree and be under the age of 35;

Applicants for doctoral degree studies must have master's degree and be under the age of 40.

3. Excellent performance in study.
4. Applicants should have good ability in scientific research.

**Note:** The scholarship cannot be combined with any other scholarship.

### III. Details of the Scholarship

1. Exempt from registration fee, tuition fee, and accommodation fee;
2. 800 RMB per year for Comprehensive Medical Insurance;
3. Monthly stipend is granted to the students at the following rates:

Master's degree candidate: 3,000 RMB/month

Doctoral degree candidate: 3,500 RMB/month

#### **Complement:**

1. Within the scholarship duration, scholarship students who register at CIE on time will receive a stipend from their host university each month. Students registering on or before the 15<sup>th</sup> of the month will receive a full stipend of that month. Those who register after the 15<sup>th</sup> of the month will receive a half stipend of that month. The stipend will be delivered during school holidays as usual. Graduating students will receive stipend until half month after the graduation date. For scholarship students who suspend education for a leave of absence or withdrawal, the stipend will be terminated from the date of applying for leaving school. If registered student stays out of China for more than 15 days due to a personal reason (school holidays excluded), the stipend will be stopped during the leaving. For the students who fail to register on time without school permission, leave school as non-health reasons or absent from class over two weeks, will be reported to the CSC, the study status and scholarship will be canceled.
2. Scholarship recipients of Chinese-taught programs without adequate Chinese proficiency should take Chinese language courses for one academic year to get HSK-4 before moving on to their major studies and the following major studies will be taught in Chinese. Failure to reach the required language proficiency (HSK-4) will lead to the automatic termination of scholarship. Scholarship recipients of the English-taught programs or those with adequate Chinese language proficiency do not need to take Chinese language courses.
3. Scholarship students who have to suspend their studies for illness should return to their home country for further treatment and rest. The international travel expenses should be paid on their own. The students, who are allowed by the CSC and school authority to suspend their education, can remain their scholarship. The scholarship status will be reserved one year at

most; however, the monthly living stipend will be stopped during the suspension of study. The scholarship status of the students who suspend their studies for acceptable reasons other than illness will be terminated.

4. Comprehensive Insurance for International students in China refers to the Comprehensive Medical Insurance insured by MOE of the People's Republic of China for the scholarship students in China. The institution is entitled to ask for compensation with the payment receipts from the insurance company for the expenses generated from hospitalizing for serious diseases or accidental injury according to the stipulated insurance articles.

#### IV. Categories of Applicants and Duration of Scholarship

No.	Categories of Applicants	Duration of Major Studies	Duration of Remedial Chinese Language Studies	Duration of Scholarship
		Academic Years		
1.	Master's Degree Students	2	1	2-3
2.	Doctoral Degree Students	4	1	4-5

Note: The duration of major study for master's degree of Architecture, Urban and Rural Planning, Landscape Architecture is **3** years.

#### V. Application Materials

The applicants need to provide the following materials truly and correctly (**in duplicate**) and pay for the material assessment fee.

1. Application Form of Chinese Government Scholarship.
2. Those who are available for online application of China Scholarship Council shall fill in and print the application form (in duplicate) after submitting online.

The CSC Online Application System is available at:

<http://studyinchina.csc.edu.cn/> Choose type B (HIT university code is 10213)

3. Highest full-time study diploma (original notarized document in English or Chinese).

**Note:** If applicants are university students, they should provide original notarized pre-graduation certificate in English or Chinese.

Notarization must be carried out through formal institution, the signature or seal from school or

working unit does not have the effect of notarization.

4. Transcripts (It is not required to be notarized, but must be signed and sealed by school. The transcripts in other languages must provide a translation in English or Chinese with notarization).
5. A study or research plan (no less than 800 words in English or Chinese). The format can be downloaded from official website: <http://studyathit.hit.edu.cn/en/academic/program/view?id=17>.
6. Two recommendation letters by professors or associate professors in English or Chinese.
7. Passport copy (Valid for one year at least).
8. Photocopy of Foreigner Physical Examination Form.

**Note:** The form is printed by the Chinese Health and Quarantine Department and is restricted to those who study in China for more than 6 months. The medical examinations must cover all the items listed in the Foreigner Physical Examination Form (website: <http://studyathit.hit.edu.cn/en/academic/program/view?id=17>). Incomplete records or those without the signature of the attending physician, official stamp of the hospital or a sealed photograph of the applicants are invalid. The medical examination result is generally valid for 6 months.

9. Bank Receipt of Material Assessment Fee: 60 USD or 400 RMB

Applicants should post the paper application materials with the copy of remittance receipt. Whether admitted or not, paper materials and material assessment fee is non-refundable.

#### **Remittance Information:**

Bank Name: Industrial and Commercial Bank of China, Harbin, Da Zhi Branch

Bank Address: 318 East Dazhi Street, Harbin, People's Republic of China

Name: Harbin Institute of Technology

Account Number: 3500040109008900513

SWIFT/BIC: ICBKCNBJHLJ

10. Acceptance letter (not a must)

Applicants are encouraged to contact the professors prior to application and enclose the acceptance letter from supervisors of HIT.

11. Language proficiency certificate (not a must)

Applicants are encouraged to enclose the HSK, IELTS or TOEFL report (valid for two years) to the

application materials if they have.

## VI. Selection of Specialty

Please visit CIE website at <http://studyathit.hit.edu.cn/en/academic/program/view?id=17> for more details.

Please visit website at <http://www.hit.edu.cn/251/list.htm> for faculty information.

Please visit website at <http://homepage.hit.edu.cn> for supervisor information.

## VII. Teaching Language

All doctoral degree programs are taught in English or Chinese (except School of Humanities, S. S. and Law). Master degree programs are generally taught in Chinese, except the English programs of Management, Material Science, Civil Engineering, Mechanical Engineering, Electronics and Chemical Engineering & Life Science and Technology. Applicant with no command of Chinese is required to take one-year Chinese language course and need to pass HSK 4 to continue the following major studies taught in Chinese. For programs taught in English, applicant whose native language is not English should submit an English proficiency certificate, a score above 80 for TOEFL or 5.5 for IELTS, or certificate from former university is also acceptable.

## VIII. Approval and Notification

1. HIT will review all the application materials and is authorized to make necessary adjustments on specialties and duration of study. The application will be regarded as invalid and will not be processed if the applicants are not qualified or the application materials are inconsistent with the recruitment regulations or incomplete.
2. Applicants accepted by HIT will be officially awarded the Chinese Government Scholarship with endorsement from CSC and submitted to MOE for the record.
3. Applicants should check all the information on the admission notice. Applicants are not permitted to change their supervisors, specialties, institutions, or the duration of study specified in the Admission Notice after registration.
4. Applicants who fail to register before **September 30, 2019** will be regarded as giving up the scholarship.

## IX. Contact Us

Ms. ZHAO Lin (English): Tel: +86-451-86402455 E-mail: [StudyatHIT@hit.edu.cn](mailto:StudyatHIT@hit.edu.cn)

Ms. LI Dongmei (English): Tel: +86-451-86402455 E-mail: [lidongmei@hit.edu.cn](mailto:lidongmei@hit.edu.cn)

Ms. PIAO Yuejin (Korean): Tel: +86-451-86412647 E-mail: [piaoyuejin@hit.edu.cn](mailto:piaoyuejin@hit.edu.cn)

Mr. LIU Wei (Russian): Tel: +86-451-86402455 E-mail: [anatolii@hit.edu.cn](mailto:anatolii@hit.edu.cn)

**HIT Doctoral Degree Programs**

**HIT Master’s Degree Programs**

**HIT Master’s Degree Programs Taught in English**

HIT Doctoral Degree Programs

School	Major	Research Field
School of Electrical Engineering and Automation	0804 Instrument Science and Technology	1. Nanometer Measurement and Ultra Precision Instrument Technology 2. Laser Measurement and Detection Technology 3. Photoelectric Measurement Technology and Instruments 4. Radiation Temperature Measurement and Testing Technology in Thermal and Physical Properties 5. Image and Information Processing Technology 6. Technology of Electronic Measurement and Instrument 7. Sensor Technology and Light Mechanical and Electrical System 8. Test Automation and Control Technology 9. Test and Equivalent Test Technology 10. Quality Measurement Technology and Instruments
	0808 Electrical Engineering	1. Electrical Machinery and Appliance 2. Power System and Automation 3. High Voltage and Insulation Technology 4. Power Electronics and Power Drives 5. Electrician Theory and New Technique
School of Energy Science and Engineering	0807 Power Engineering and Engineering Thermo-physics	1. Comprehensive Utilization of Energy and Energy Saving Technology 2. Multiphase Flow System Engineering 3. Air Pollution Control Technology 4. Convection Pneumatic Coupling Heat Transfer and Radiation 5. Dynamic Mechanical Pneumatic Thermodynamics 6. Optimization of Supernormal Parameter Steam Turbine 7. Thermal System Dynamics and Control Machinery 8. Flow Analysis of Fluid Power Components 9. Automation in Petro-Chemical Industry
School of Computer Science and Technology	0812 Computer Science and Technology	1. High Reliable High Performance Computer Architecture 2. Mobile Computing and Embedded Computing 3. Computer Network and Information Security 4. Computing Theory 5. Huge Amounts of Data Calculation 6. Service Computing 7. Biological Computing and Bioinformatics 8. Intelligent Human-Computer Interaction and Digital Media Technology 9. Artificial Intelligence and Pattern Recognition

		10. Multiple Languages and Chinese Information Processing 11. Social Computing
	0835 Software Engineering	1. Software Service Engineering 2. Software Engineering and Software Architecture 3. Software Trustworthiness and Reliability 4. Intelligent Software Theory and Machine Learning 5. Business Intelligence and Data Mining 6. Field of Software Engineering
School of Astronautics	0811 Control Science and Engineering	1. Navigation, Guidance and Control 2. Control Theory and Control Engineering 3. Detection Technology and Automatic Equipment 4. Pattern Recognition and Intelligent System 5. Systems Engineering
	0801 Mechanics	1. Structural Dynamics and Vibration Control 2. Dynamics of Composite Materials 3. Concept of Micro Dynamics 4. Solid Dynamics 5. Dynamic Inverse Problem and Fault Diagnosis 6. Material Performance Characterization and Failure Analysis 7. Nonlinear Kinetics 8. Intelligent Material Systems and Structures 9. Fluid Dynamics 10. Optimum Structural Design 11. Fatigue and Fracture Mechanics 12. Mechanical Behavior of Materials in Extreme Environments 13. Lightweight Space Structure Design
	0825 Aeronautical and Astronautical Science and Technology	1. Aircraft System Optimization Design and Simulation 2. Aircraft System Optimization Design and Simulation 3. Deep Space Probe Landing and Return 4. Space Structure Dynamics and Control 5. Effect of Space Environment and Protection
	0803 Optical Engineering	1. Space Optical Access to Information Technology and Processing 2. Optical Guidance and Simulation 3. Modern Photoelectric Testing Technology 4. Target Detection and Recognition 5. Optical Image Processing and Evaluation 6. Space Laser Communication 7. Laser Radar and Laser Remote Sensing 8. High Power Laser and Tunable Laser 9. Nonlinear Optics Technology and Application

		10. Photoelectric Device and Technology
	0809 Electronics Science and Technology	1. Laser Spatial Information and Confrontation 2. Tunable Laser Short Wavelength Laser 3. Nonlinear Optics Quantum Optics Technology and Application 4. Photoelectric Device and Technology 5. Laser Spectrum and The Mechanism of Laser Medium 6. Micro-Nano Devices and Systems 7. Mixed Signal and Rf IC/A 8. Integrated Sensor Technology 9. System-On-A-Chip Soc and IP Design Technology 10. Microwave Transmission Theory and Antenna System
School of Mechatronics Engineering	0802 Mechanical Engineering	1. Precision and Ultra-Precision Processing Technology 2. Micro-Nano Manufacturing Techniques 3. Special Processing and Special Material Processing Technology 4. Modern Design Theory and Method 5. Digital Design and Manufacturing Technology 6. Mechanical and Electrical System Control and Automation 7. Modern Sensor and Testing Technology 8. Fluid Flow Control and Automation 9. Robot Technology and System 10. Special Transmission Intelligent Design and Control 11. Tribology Basic Theory and Application Technology 12. Engineering Structure Design and Analysis 13. Vibration and Noise Control 14. Biomechanical Engineering 15. Production System Automation Technology 16. Manufacturing System Engineering Management 17. Vehicle Dynamics and Control 18. Vehicles Advanced Manufacturing Technology 19. Modern Design Theory and Method Of Vehicle 20. Vehicle Electronics and Control
	0825 Aeronautical and Astronautical Science and Technology	1. Space Structure and Control 2. Aerospace High Precision Manufacturing Technology 3. Space Robot Technology 4. Space of Special Processing Technology 5. Aircraft Digital Manufacturing Technology 6. Aircraft Ground Simulation and Testing Technology
		1. Intelligent Materials and Devices 2. Photoelectric Film Material with Quantum Devices 3. Special Optical Fiber and Device
